

THE GALATA ISTANBUL HOTEL MGALLERY

ENERGY EFFICIENCY POLICY

At The Galata Istanbul Hotel MGallery, we use our energy efficiently to protect our world from potential dangers and set goals to reduce energy consumption.

For this purpose:

- We follow national and international standards, laws, and regulations to fulfill our responsibilities to nature and legal obligations. We voluntarily undertake initiatives to reduce energy usage and/or continuously improve our energy consumption performance. We monitor the results of our efforts.
- We set goals and incorporate energy efficiency into our training programs to ensure the participation of our employees
- We value collaboration with all stakeholders to create common goals and results in energy management. We strive to maintain interaction with our guests, employees, visitors, and all business partners to collectively raise awareness and consciousness regarding energy efficiency.
- We research, procure, and use energy-efficient suitable products, equipment, and technology alternatives.
- We aim to document our Energy Management System, disseminate it to all departments, update it when necessary, review it, and continuously improve it.
- We evaluate energy risks or potential emergencies such as energy constraints and plan measures that can be taken.
